**D. MOTT'S**  
**CHALYBEATE RESTORATIVE**  
**PILLS & IRON**

And aperient and Stomachic preparation of IRON purified by combustion in Hydrogen.—Sanctioned by the highest Medical authorities, both in Europe and the United States, and prescribed in their practice.

The experiences of thousands daily prove that no preparation of iron can be compared with it.—Impurities of the blood, depression of vital energy, pale and otherwise sickly complexion indicate its necessity in almost every conceivable case.

In cases of general debility, whether the result of acute disease, or of the continued diminution of nervous and muscular energy from chronic complaints, one trial of this restorative has proved successful which no description or attestation would render credible. Invalids so long bed-ridden so long as to have become forgotten in their own neighborhoods, have suddenly reappeared in the busy world as if just returned from protracted travel in a distant land. Some very signal instances of this kind are attested of female sufferers, emaciated victims of apparent anæmia, sanguineous exhaustion, catarrhs, and that complication of nervous and dyspeptic aversion to air and exercise for which the physicians have no name.

In Nervous Affections of all kinds, and for reasons familiar to medical men, the operation of this preparation of iron must necessarily be salutary, for, unlike the old oxides, it is vigorously tonic, without being exciting and overheating; and gently regular aperient, even in the most obstinate cases of constiveness without ever being a gastric purgative, or inflicting a disagreeable sensation.

It is this latter property among others which makes it so remarkably effective for Piles, upon which it also appears to exert a distinct and specific action, by dispersing the local tendency which forms them.

In Dyspepsia, innumerable as are its causes, a single box of these Chalybeate Pills has often sufficed for the most habitual cases, including the attonal costiveness.

In unchecked Diarrhoea, even when advanced to Dysentery, confirmed, encephalic, and apparently malignant, the effects have been equally decisive and astonishing.

In the local pain, loss of flesh and strength, debilitating cough and remittent hectic, which generally indicate incipient consumption, this remedy has allayed the alarm of friends and physicians, in several very gratifying and interesting instances.

In Scrophulous Tuberculosis, this medicated iron has had far more than the good effect of the most cautiously balanced preparations of iodine, without any of their well known liabilities.

The attention of females cannot be too confidently directed to this remedy and restorative, in the cases peculiarly affecting them.

In Rheumatism, both chronic and inflammatory—in the latter, however, more decidedly—it has been invariably well reported, both as alleviating pain, and reducing the swellings and stiffness of the joints and muscles.

In Intermitent Fevers it must be a great remedy and energetic restorative, and its progress in the new settlements of the West, will probably be one of high renown and usefulness.

No remedy has ever been discovered in the whole history of medicine which exerts such prompt, happy, and fully restorative effects. Good appetite, complete digestion, rapid acquisition of strength, with a usual disposition for active and cheerful exercise, immediately follow its use.

Put up in neat flat metal boxes containing 50 pills, price 50 cents per box; for sale by druggists and dealers. Will be sent free to any address on receipt of the price. All letters, orders, etc., should be addressed to
